Date 12/22/2020
Void after 90 days

INSTRUCTIONS. PLEASE READ CAREFULLY

- 1. Print this check on a standard 8.5 x 11 paper. Preferably use a laser printer. Print with the highest quality.
- 2. Do not print this check if you are running low on ink. You can print either color or grayscale.
- 3. Make sure to select "Scale to printable area". You must be able to view all 4 corners of the check at about 5 mm from the edge.
- 4. If the check is smudged, or you cannot see clearly the 4 corners of the check or the bank account info is not clearly visible at the bottom, do NOT deposit.
- 5. Make sure to have the correct printer drivers installed directly from the manufacturer. Some of the generic Microsoft drivers cut off parts due to margin problems.
- 6. Cut the bottom third of the check on the "Cut here" line. Keep the top two thirds for bookkeeping.
- 7. Please note that tampering with a check is a federal crime. All checks are traced.
- 8. Endorse the check on the back with your signature. The check becomes void 90 days after the issue date.
- 9. Once you request to print check, we consider it deposited. You will not be able to re-print it.

THANK YOU FOR CHOOSING CHECKS ON THE CLOUD

Please visit us at http://checksonthecloud and start writing your own checks!

Cut Here

IMPORTANT: SCALE TO PRINTABLE AREA ONLY
